CONTENTS

Volume 45 Number 1 January 1988

EDITORIAL

A science journal, seventy-five years on, *A. D. Farr* 1–4

LEADING ARTICLE

Blood group antibody detection: enzyme techniques revisited, *G. Garratty* 5–6

ORIGINAL ARTICLES

Optimum enzyme activity in blood grouping, and a new technique for antibody detection: an explanation for the poor performance of the one-stage mix technique, *M. L. Scott, D. Voak and D. M. Downie* 7–18

A microplate reader for blood grouping, *A. R. Bowley, W. Donald, I. Gordon, B. Pirie and D. W. Ross* 19–27

Antimicrobial susceptibility testing and biochemical identification using multipoint inoculation: 5 years' experience, *A. A. Pease, P. F. Wheat and D. M. Harris* 28–33

Comparison of the sensitivity and specificity of eight commercially-available reagents for clinical detection of Group A streptococcus to different extracts of streptococci, *G. W. L. Hodgins and T. J. G. Raybould* 34–39

The Feulgen hydrolysis profile and breast carcinoma: a preliminary study, *Robert G. Mays, Christopher W. Elston, Ian O. Ellis, Roger W. Blamey and Carl S. Dowe* 40–44

Lectin agglutinins: a comparative study of *Lotus tetragonolobus* and *Ulex europaeus* 1 as markers of vascular endothelium in follicular thyroid carcinoma, *David W. R. Griffiths and Timothy J. Stephenson* 45–51

Treatment of bone marrow trephine biopsies prior to cryotomy for immunocytochemical demonstration of cell surface antigens, *C. J. Phillpotts and J. G. Smith* 52–56

Steroid receptor assay from cryostat sections: practical aspects, *V. J. M. Dangerfield* 57–68

A rapid and simple micromethod for the specific determination of descarboxylated prothrombin (PIVKA II), *J. L. Francis* 69–73

Standardisation of a homologous antibody-dependent cell mediated cytotoxicity (ADCC) assay for bioclinical use, *Michel Ayoub Greiss* 74–82

Dermatophyte infection in Somerset 1976–1985, *F. B. Greatorex* 83–87

REVIEW ARTICLE

Sub-divisions of the Rh antigen D, *Patricia Tippett* 88–93

SHORT COMMUNICATIONS

Effect on hormone levels of heat treatment for inactivation of human immunodeficiency virus in plasma, *D. G. Middleton* 94–96

Endogenous alkaline phosphatase is a cause of non-specific reactions in enzyme-immunoassays for rotavirus based on alkaline phosphatase conjugates, *G. M. Beards* 97–98

THESIS SUMMARIES 99–102

STATEMENT OF EDITORIAL POLICY AND FULL INSTRUCTIONS TO AUTHORS 104–108

BOOK REVIEWS 109–112

Volume 45 Number 2 April 1988

LEADING ARTICLE

Transplantation: the future, *G. Reynolds* 113–115

ORIGINAL ARTICLES

Serial serum C-reactive protein levels as an indicator of infection in cardiac transplant patients, *Deborah E. Orriss* 116–120

Reproducibility of nuclear measurements in computer-assisted image analysis, *Kwok W. Chan, K. Y. Chiu, K. H. Fu and Julia Ling* 121–124

Enzyme histochemical demonstration of lactase and sucrase activity in resin sections: the influence of fixation and processing, *Neil M. Hand* 125–130

The relationship between coagulation factor VIII and ABO blood group status, *D. S. McLellan, S. R. Knight and A. Aronstam* 131–134

Gas capture systems for positive blood cultures: comparison of a novel new system with a radiometric method, *A. M. Murray, A. Foley and R. Hone* 135–138

Dermatophyte fungi: improved isolation in a hospital laboratory, *P. Cheetham and S. J. Holland* 139–142

Spectrophotometric quantitation of haemoglobin S fraction in heterozygous sickle-cell trait (HbAS), *H. L. Reid and A. A. Famodu* 143–145

Bromelain solutions for use in automated anti-D quantitation: a potential hazard, *P. J. Bowell, B. J. Cully and N. T. Young* 146–150

Semi-automated microplate blood grouping, *C. J. Airey* 151–160

Monoclonal antibody production: a cost comparison, *Anne Tod and Ann Chirnside* 161–164

REVIEW ARTICLES

Flow cytometry: principles and clinical applications, *M. G. Macey* 165–173

Laboratory diagnosis of leptospirosis, *M. F. Palmer* 174–178

SHORT COMMUNICATIONS

Problems encountered with a side-room bilirubinometer: the Time BB-meter model 3, *C. Dickens and M. G. Rinsler* 179–181

A microcomputer program for analog data collection with peak analysis, *G. P. McGuffie and D. A. Morley* 182–183

Acid-fast smears: a cause of false positive reactions, *Margaret A. Allen, Sarah B. Lalor, Liam F. English and Eric Mulvihill* 184–186

Enumeration of lymphocyte sub-populations: a comparative study of whole blood and gradient centrifugation methods, *M. G. Macey, C. J. Hyam and A. C. Newland* 187–191

THESIS SUMMARY 192

LETTERS TO THE EDITOR 194–197

BOOK REVIEWS 198–204

Volume 45 Number 3 July 1988

EDITORIAL

Uniform requirements for manuscripts submitted to biomedical journals: a new edition, *A. D. Farr* 207–208

ORIGINAL ARTICLES

Uniform requirements for manuscripts submitted to biomedical journals *International Committee of Medical Journal Editors* 209–219

Assessment of a new test ('Staphylase' ™) for the identification of *Staphylococcus aureus, A. W. Cremer and R. N. Grüneberg* 221–224

Assessment of antibiotic-sensitive, intermediate or resistant status of bacteria by agar dilution, *J. Clare Franklin* 225–234

Catheter colonisation: a laboratory model suitable for aetiological, therapeutic and preventive studies, *R. Bayston and S. Barsham* 235–239

Peroxidase labelling in immunocytochemistry: a critical comparison of five systems, *R. M. Bains and K. D. Miller* 240–244

Quantitation of plasma thyroxine by enzyme immunoassay: a new approach, *S. H. Chui, T. E. Isles, H. S. Chiu, C. W. K. Lam and W. H. P. Lewis* 245–249

Urinary polyamines in malignancies, *Shigenobu Umeki, Yayoi Umeki, Takashi Okumoto and Takeshi Matsumori* 250–254

Correlation between red cell glucose-6-phosphate dehydrogenase level and haematological parameters, *M. A. F. El-Hazmi and A. S. Warsy* 255–260

Human coagulation factor IX: direct depletion and recovery from plasma, using immobilised monoclonal antibody, *Hagop Bessos, Christopher V. Prowse and Keith James* 261–265

Assay of bovine milk fat globule membrane antibody by a non-isotopic chemiluminescent method, *E. Thomas* 266–269

SHORT COMMUNICATIONS

Flame photometry: a simple method and reference range for erythrocyte sodium and potassium, *Robert W. L. Siebers and Timothy J. B. Maling* 270–272

A simple flagella staining technique for *Trichomonas vaginalis*, *John Ademayowa Adebayo* 273–274
The indirect antiglobulin test: a routine microplate method for antibody screening, *P. J. Hurstell* 275–276
Hepatitis B surface antigen: preliminary evaluation of a latex agglutination test, *C. McDonald and J. Barbara* 277–278
A liquid phase enzyme antibody screening method for use with a photometric microplate haemagglutination reader, *Ann Gooch and D. McNeill* 279–281
Basophil-enriched leucocyte populations in an anti-IgE mediated protease degranulation assay, *J. R. Britton, H. E. Thompson and T. Williamson* 282–286

THESIS SUMMARIES 287–289

LETTERS TO THE EDITOR 291–294

BOOK REVIEWS 295–302

Volume 45 Number 4 October 1988

EDITORIAL

Genetics in the medical laboratory, *A. D. Farr* 303

ORIGINAL ARTICLES

Chemical pre-screening of urines submitted for bacteriological analysis, *Hazel Brown* 304–307
Effect of beta-propiolactone on some routine haematological tests, *H. I. Atrah, Mary Allardyce and R. J. L. Davidson* 308–311
Brucella antibodies in Sudanese blood donors, *Ismat A. Khalil, Seda Phkrykian and A. D. Farr* 312–314

REVIEW ARTICLES

A review of clinical cytogenetic services in Great Britain, *Doreen Summers* 315–317
Recent developments in clinical cytogenetics, *Doreen Summers and G. Clarke* 318–323
Automation in cytogenetics, *Michael G. Daker* 324–332
The role of clinical cytogenetics in medicine: with special emphasis on oncology, *Christine J. Harrison* 333–348
Recombinant DNA technology in haematology, *A. D. Blann* 349–357
von Willebrand factor multimers: their demonstration and significance, *D. S. McLellan and C. Webb* 358–369
Genetics of the HLA system, *A. D. Blann and W. B. Crichton* 370–380
In situ hybridisation: a new tool in pathology, *A. Warford* 381–394
Genetics of the Rh blood group system: some current concepts, *Peter D. Issitt* 395–404

SHORT COMMUNICATIONS

Preparation of alum haematoxylin, *W. Slidders* 405–406

Demonstration of malarial parasites in blood films using acid-elution prior to Giemsa staining, *M. A. Arnott and J. Hay* 407–408

THESIS SUMMARIES 409

LETTER TO THE EDITOR 410

BOOK REVIEWS 411–416

SUBJECT AND AUTHOR INDEXES 417–423
